

Approval Escalation Matrix

Version Information

Field	Value
Policy ID	AEM-2026-009
Department	Enterprise Risk & Compliance
Effective Date	January 1, 2026

1. Purpose

This document defines escalation thresholds, approval hierarchy requirements, and mandatory compliance review conditions for enterprise financial operations.

2. Approval Hierarchy

Transaction Amount	Required Approval Level
Below USD 100,000	Operations Manager
USD 100,000 – 500,000	Finance Controller
USD 500,000 – 2,000,000	Regional Finance Director
Above USD 2,000,000	Executive Treasury Committee

3. Mandatory Escalation Conditions

Transactions must be escalated when:

- approval thresholds are exceeded
- dormant entities become active
- abnormal transaction velocity is detected
- foreign exchange exposure exceeds regional limits
- repeated transaction splitting patterns occur

4. Self-Approval Restrictions

Employees are prohibited from:

- approving transactions they initiated
- modifying approval workflows without authorization
- bypassing approval queues

Violations are categorized as critical compliance breaches.

5. Monitoring Triggers

Automated systems monitor:

- repeated round-number transactions
 - rapid sequential transfers
 - cross-region abnormal payment patterns
 - duplicate transaction identifiers
 - unusual operational timing activity
-

6. Escalation Workflow States

Transactions may transition through:

- Open
 - Under Review
 - Escalated
 - Compliance Investigation
 - Resolved
-

7. Audit Requirements

All escalated activities must include:

- audit timestamps
- reviewer identity
- action tracking
- remediation documentation
