

Foreign Exchange Governance Policy

Version Information

Field	Value
Policy ID	FXG-2026-021
Department	Treasury Governance
Effective Date	January 1, 2026

1. Purpose

This policy establishes governance standards for foreign exchange transactions executed across enterprise legal entities.

2. Approved Currency Operations

Approved settlement currencies include:

- USD
- EUR
- GBP
- INR
- JPY

Non-standard currency settlements require treasury approval.

3. FX Approval Controls

Foreign exchange transactions exceeding USD 250,000 equivalent require:

- treasury controller approval
 - exchange rate validation
 - settlement documentation
-

4. Prohibited Activities

The following activities are prohibited:

- unauthorized currency conversion

- unapproved offshore settlement routing
 - exchange rate manipulation
 - manual FX override processing
-

5. Monitoring Controls

Automated monitoring systems review:

- unusual FX transaction frequency
 - abnormal cross-currency exposure
 - inconsistent settlement patterns
 - rapid multi-currency conversions
-

6. Compliance Violations

Potential violations include:

- unsupported exchange activity
 - unauthorized settlement processing
 - missing treasury authorization
 - inconsistent FX documentation
-

7. Operational Risk Indicators

The following patterns are considered elevated risk:

- repeated high-value FX transactions
- dormant entity FX activation
- excessive after-hours currency processing
- rapid currency conversion chains
