

Procurement Financial Controls Manual

Version Information

Field	Value
Manual ID	PFC-2026-031
Department	Procurement Risk Operations
Effective Date	January 1, 2026

1. Purpose

This manual defines financial governance requirements for procurement-related transactions and vendor settlement operations.

2. Vendor Payment Controls

All vendor payments must:

- include approved invoice references
 - contain procurement authorization
 - comply with regional approval limits
-

3. Restricted Procurement Activity

The following activities are considered high risk:

- duplicate vendor settlements
 - split invoice payments
 - repeated round-number transactions
 - rapid sequential vendor transfers
-

4. Approval Controls

Procurement payments exceeding USD 300,000 require:

- dual authorization
 - procurement director review
 - compliance verification
-

5. Audit Monitoring

Automated controls review:

- payment duplication
 - abnormal procurement frequency
 - suspicious vendor activation
 - dormant vendor reactivation
-

6. Escalation Requirements

Potentially suspicious procurement transactions may trigger:

- temporary settlement hold
- enhanced review
- operational escalation
- audit investigation
